TOTAL REWARD FOR COOL SPOT OFFERED, \$750

Citizens Determined to Find Everywhere the Sun's Fierce Rays Beat Down.

DETECTIVES WILL BE HIRED RELIEF NOT YET IN SIGHT.

SUSPICION POINTS TO A STRANGER SEEN AT FERGUSON.

Rewards From Four Different Sources Have Been Offered and Citizens Believe There Are Tangible Clues to Work On.

REWARDS FOR A MURDERER.

The following rewards have been offered for the arrest and conviction of the man who shot and killed Andrew H. Pirie at Ferguson, Mo., about 11:45 o'clock p. m. Saturday, June 29:

By the city council of Ferguson, Mo.	\$500
By the County Court of St. Louis	100
By the County of St. Louis	100
By the Florissant Protective Association	100
Total	\$800
To be deducted for expenses	50
Total reward offered	\$750

When death followed Andrew H. Pirie at his home in Ferguson, Monday afternoon it gave the St. Louis county authorities a murder mystery to solve. Instead of an attempted highway robbery, as it was at first supposed, it was a case of a man at home, after resting the attempts of a man to rob him.

He suffered at his home for 36 hours and made a brave struggle for life, but the wound was mortal and after suffering torture he lost consciousness and quietly passed away.

Not since Bertram Atwater, a young Chicago artist, was shot to death by Sam Foster and John Schmitt at Webster Groves in January, 1898, in a similar manner, have the citizens of St. Louis County been so thoroughly aroused and determined to discover and bring to justice a desperate assassin.

As announced in Monday's Post-Dispatch exclusively, citizens of Ferguson have offered a reward of \$500 for the apprehension of the man who killed Mr. Pirie. This amount has already been subscribed. Monday night the City Council of Ferguson offered a reward of \$100.

The County Court of St. Louis County offered \$100. In addition to all this, Gov. Dockery will be asked to name a reward of \$100. Citizens, feeling that the local authorities are incompetent to ferret out the murderer, have decided to employ detectives from St. Louis and they feel that they already are something to be proud of.

It is thought that the man who fired the fatal shot is white. Mr. Pirie, who stated to Fred Zellig, who rode with him, that he was shot from the house where Mr. Pirie lived, and that he was shot within two minutes after the shot was fired.

Enough Men Were
In the neighborhood.
Last Saturday morning, about 11 o'clock, Mrs. Zellig took a friend out for a drive. A short distance north of Ferguson, lying alongside the road, Mrs. Zellig noticed three men.

They were so rough-looking that Mrs. Zellig called her companion's attention to them, and they took a good look at the trio. She said that they looked like hucksters. One of the men wore a pair of blue overalls and a black hat. The other two wore light-colored shirts and dark trousers. They were all looking at the car.

She said that the man with the blue overalls was looking at her with a stare. She said that she could recognize him in case she should ever see him again. He was a tall man, with a smooth face and a dark complexion. The expression on his face was so sinister that Mrs. Zellig applied the whip to her horse and drove hurriedly. She related this to her husband when she returned home Saturday night. He paid no heed at first, but had occasion where she told it afterwards.

Ferguson has a one saloon. This is in the corner of the main thoroughfare of the city and is kept by George Ruehnpohl. During Saturday night, Mrs. Zellig, looking black and blue, wearing a dark, black alouch hat, and having a dark complexion, entered the saloon, and several times bought liquor.

He spoke to Ruehnpohl and made inquiries about the neighborhood. Ruehnpohl had never seen him since Saturday night. This stranger impressed the saloon keeper unfavorably. Ruehnpohl said that he used Ruehnpohl says he believes he is not a workman, as he tried to make believe, but some police character from the city.

Shooting Done
by a Stranger.
Mr. Zellig says there is tangible evidence that the shooting was done by a stranger to the neighborhood, but by one who had studied the location for committing the crime with some care.

THUNDER SHOWERS MAY TEMPER HEAT IN SOME DISTRICTS.

Frightful List of Deaths Reported in New York, Where the Streets Night and Day Are Like Bake Ovens.

WASHINGTON, July 2.—The weather bureau has issued the following special bulletin:

"There are no present indications of a permanent break in the warm wave which covers the country generally east of the Rocky Mountains. Local rains and thunder storms will furnish temporary relief in the lower lake region, the upper Ohio valley and in the mountain districts of Pennsylvania, Maryland, West Virginia and Virginia, and there is a possibility that these local rains may occur in limited areas in Atlantic Coast states."

"H. E. WILLIAMS, Acting Chief."
The present torrid season began June 20, and this is the twelfth day of the hot spell. The cities showing temperatures about 100 yesterday were St. Louis, Philadelphia, New York, Washington, Chicago and Cincinnati.

The number of deaths yesterday from heat is shown in the following table:

St. Louis	20
Philadelphia	11
New York	11
Washington	11
Chicago	11
Cincinnati	11

The heat is said to not affect Mrs. McKinley unfavorably and it is proposed to make the journey to Canton next Friday. There were numerous prostrations in the department of health yesterday. The census bureau was sent home because of exhaustion from heat. The hospital suffering from heat stroke.

STREETS ARE LIKE BAKE OVENS
Special to the Post-Dispatch.
NEW YORK, July 2.—The death list in New York since the present hot spell began numbers 131, as follows:

June 27	3
June 28	5
June 29	10
June 30	19
July 1	19
July 2	19

The number of prostrations yesterday was 179. Top notch for the present heat reign was scored at 129 p. m. yesterday when the official bulletin in the weather bureau climbed to 98.2. It was the hottest weather of the twentieth century, one degree hotter than Sunday, and lacked but a fraction of a degree of eclipsing any July weather on record.

Today's forecast is for continued hot weather with no hope thrown in of any let-up. Nowhere in the country is a rainstorm in sight which might turn this way.

No index of the city's increased suffering from the heat is shown in the weather bureau's bulletin. Downtown the streets are so hot that the sunbathers are fairly mad to gasp for breath. Unofficial thermometers registered as high as 110 degrees in the parks and by the seashore. Men felt overcooled and sunbathers, as well as in the street, Lawyer Fred B. Cavanagh, foreman of the jury charged with the murder of George Price, was prostrated by the heat yesterday afternoon. A very exciting period of the court proceedings, and had to be taken from the courtroom.

During the day 40 men were overcome by the heat by Haverley's sugar refinery, the eastern district's most heated place. The mortality among horses was vastly greater in proportion than among men. The heat society estimates that not less than 250 died from the heat in the city between June 27 and Sunday.

At the New York Veterinary Hospital nine doctors were kept busy employed all day yesterday. It was a frequent sight to see the over-heated horses being cooled by the water from a hose. At all the fire houses this man was used to cooling the horses after a run.

Over in Williamsburg six calves out of a lot of 10 died on a truck on the street. One of the two horses drawing the truck collapsed. At midnight it was reported that 1000 were asleep on the beach at Coney Island. They went down early on the trolleys and were found dead in the morning.

The highest official temperature on record in New York since the organization of the weather bureau, 30 years ago, has been 98.2 degrees, the temperature at the city hall. The weather thermometer was at the 95 mark at 10 a. m., 6 degrees higher than at 10 o'clock yesterday. The heat was so oppressive and the sun so hot that the heat has been killed or disabled by the heat that delivered of numerous and ice were much retarded today, thus adding to the discomfort and suffering.

In Brooklyn a sudden death was reported to the coroner's office between midnight and 2 a. m., and of these 17 were directly due to heat.

At 11 o'clock the police department's list showed that from midnight to that time a total of 17 deaths had occurred in the greater New York. Nearly all the dead were males.

MIDDLE WEST AND SOUTH.
CINCINNATI, July 2.—The wind and rain storm of last night lowered the temperature to 78 degrees, but the heat was still oppressive and the sun so hot that the heat has been killed or disabled by the heat that delivered of numerous and ice were much retarded today, thus adding to the discomfort and suffering.

ANOTHER BANK'S DOORS CLOSED

Niagara Bank of Buffalo Declared Insolvent

STATE OFFICERS TOOK CHARGE

ITS CLOSE CONNECTION WITH CITY NATIONAL, THE CAUSE.

Vice-President of the Latter Was President of the Niagara and the Finances of the Two Were Much Involved.

BUFFALO, N. Y., July 2.—The Niagara Bank, a state institution, has closed its doors. The following notice has been posted on the doors:

"I have closed and taken possession of this bank."
F. D. KILBURN,
Superintendent of Banks.

The Niagara Bank was organized Sept. 15, 1881. It had a capital of \$100,000. The officers are: President, P. H. Griffin; vice president, M. M. Darke, cashier, William Thayer.

The chairman of the clearing house committee, the failure of the City National Bank, its close connection with the City National Bank, its president having been vice president of the City National Bank, and that no other bank here in any way affected.

At the meeting of the clearing house committee yesterday at the close of business, the Niagara Bank was the only bank that applied for any assistance and arrangements were made to give the assistance asked for. The report this morning by the banking department as to the solvency of the bank.

Mr. Kilburn, the superintendent of banks, on his arrival in town this morning became satisfied that the bank could not do with the assistance asked for, and accordingly directed that the bank be closed in order to protect all interested.

The bank superintendent was seen in the Niagara Bank and asked why the bank was closed. "I have closed this bank because I think it insolvent. The main reason for its failure is the failure of the City National Bank. This bank is involved in that to an extent not yet to be announced, but I do not deem it prudent to permit this to continue any business longer. As to whether this bank has been in trouble heretofore, I have nothing to say."

NO FIREWORKS FOR SCHWAB
Last Year the Steel Trust's President Burned Up a Neighbor's House.

PITTSBURGH, July 2.—Mr. C. M. Schwab, president of the Billion-Dollar Steel Trust at \$1,000,000 a year, will not celebrate the Fourth this year with firecrackers and pinwheels, as has been his custom. Last year he burned up a neighbor's house and the glorious celebration cost him \$7000-\$8000 for the house and \$3000 for burned powder.

Mr. Schwab has always been intensely patriotic. Usually he has invited a large number of guests to his home for the Fourth, and they had got into a great row. He will have the house party this year the usual, but it will be a quiet one.

The \$5000 rocket was set off last year by the host himself. It didn't go up like well-behaved and glit-glit rocket should. It exploded in a cloud of smoke and finally plunging head on upon the roof of his neighbor's house.

His guests resolved themselves into an amateur fire company, but it was no use. The house and Mr. Schwab's \$5000 went up in smoke.

He has notified his expected guests this year that they need not bring firecrackers.

HEAT CLAIMS SEVEN VICTIMS.
Thirty-Five Patients Are Now at the City Hospital.

Thirty-three persons—a larger number than ever treated during the entire summer of 1900—are at the City Hospital suffering from heat prostration.

"Only a very small percentage of heat cases terminate fatally," says Dr. Nietert. "In New York, Chicago, Philadelphia and other cities the death rate is proportionately great, if not greater, than in St. Louis."

ST. LOUIS, MO., IS TORRID, IT IS TRUE, BUT OTHER HOT TOWNS ARE IN VIEW

In Simla They Simmer, in Porto Rico They Reek; in Sahara They're Getting Slimmer, Every Week.

We're not the warmest baby on the beach—Here in St. Louis, Nay, there are others.

Declares St. Louis for sundry days hath been. The hottest burg upon the weather map of Uncle Sam. But what of that? There are. Twixt pole and pole upon this stinky sphere, Still others—don't forget it. Bear in mind We're not the king potato in the pot.

Yes, there are others with the skin boiled off. For instance, take the desert of Sahara. (Don't take it for granted because I'll burn your fingers. It's like the steaming of a red-hot stove.) But take Sahara—don't you reckon, now, Old Sa is hotter than the sunniest corner of Old St. Louis? Just think how white a coloric Things must be over there, where molten is blown by fierce simoons athwart the dunes.

Baked to a blister! Why, there's such a drought in Sahara that the salted earth of St. Louis, Becomes the wee sma' hourlies of the morn, is moisture to your neck! Compared to St. Louis at 2 a. m. is like a sponge Dipped deep in drafts of dear deliciousness! neas!

And Sahara ain't the only hot stuff, either. The sizzling sands of Simla, and the swart, dark stretches of the Hindoo holocausts. This boiling kipples of at smuch you kipple— These, too, are hotter than Broadway and Wash. Over these the dusky dudes and doves go the because man one better fly going shirtless also. And the British, Who rule them with benevolent simulation They simulate benevolence, don't you know!

To keep from melting into soap grease, sit Before their bungalows at eventide. Clad only in the "soul's. These simulators Simmer in Simla! It is simply fierce!

But Uncle Sam hath now in his domains Still warmer climes than this Missouri heat. Think of Porto Rico, where reporters reek With sweat while sending back for public prints. Large, luscious tales of how the Porto Ricans Delight in paying that 15 per cent. And there's Manila—now Manila's warm. They say, in sundry ways, 'Not only heat From the tropics and sunbaked streets, but warmth

Of her warm-blooded people, Spanish deers And senoritas, Filipino and Chinese. Who, since they learned St. Louis beer to sip, Have times in the old town every night And day as well. There's no place on the map Where such a hot pace has been set for folks.

As in Manila, where the shoulder-strap Is open sesame to everything. And there's the Philippines, where no Selbert To beat Sahara. Just suppose you lived Where letters came addressed to you (Particular Inferno, see?)—you'd wish To get back here at a summer garden Reduce your parballed hide to cooling. From Kimmick and from Montano Park: Oh! 'tain't so hot in this World's Fair place.

As some folks, Then why make brag-Of heat? Only egg within the nest That boils itself? We're not so warm! Hang up your coat, suspend your galluses For the time being, wear a striped shirt. Eat milk and crackers a la mode, with cracked Ice and side, and think of simmering Simla, Manila, Porto Rico, a few nights ago, may be matched again. W. P. Sheridan, who fought at Cebokita, Ill., says that a match will take place within four weeks, at 120 pounds, for a side wage of \$50.

FREIGHT MEN STRIKE OLIVE STREET LEASE

SUSPENSION OF WORK AT EAST ST. LOUIS WAREHOUSES. SEVERAL RAILROADS YIELD VALUATION \$9260 FRONT FOOT

Men Work for \$1.25 a Day and Declare That They Cannot Support Their Families.

Three hundred striking freight handlers at the railroad warehouses in East St. Louis, Monday, caused an entire suspension of freight traffic.

The men demanded an increase in pay from \$1.25 a day to 15 cents an hour for a reserve force. There were no demonstrations of violence.

A report was current at an early hour Tuesday morning that negro labor would be imported from St. Louis. The rumor caused some excitement. Expressions of indignation from prominent citizens who are in sympathy with the strikers were obtained.

Chief of Police Hauss kept his night men on duty during the day at the station as a reserve force. The men have no demonstrations of violence.

FIRED CRACKERS NOT FORBIDDEN

Everybody May Use Them to Celebrate July 4.

GIANT CRACKERS ARE BARRED

REVOLVERS AND BOMBS ALSO UNDER THE MAYORAL BAN.

Mayor Wells' Order Has Been Slightly Modified, but the Use of Dangerous Explosives Will Be Prohibited.

Squibs, the most common and harmless species of the genus firecracker, are to be used without restraint by St. Louis youths in celebrating the Fourth of July.

Acting Mayor Hornsby has lessened the rigor of Mayor Wells' decree against fireworks in general by directing that no permits shall be required for the use of two-inch firecrackers of Chinese manufacture. Cannon and dynamite crackers are not to be permitted under any circumstances.

The same prohibition will apply to revolvers, toy cannon, bombs, anvils and other noise-making devices which use so much powder or other explosives as to be dangerous.

The Hornsby modification of the Wells proclamation came when it appeared that Secretary McKimley of the mayor's office was about to be overruled with application for permits for the use of firecrackers.

"I believed," said Mr. Hornsby, "that Mayor Wells did not intend to prevent the use of squibs, and it seemed that it would be a physical impossibility to make out permits for every boy who wanted this privilege. So I have removed the restraint on this common way of celebrating the Fourth."

It must be distinctly understood that cannon crackers will not be allowed. Some neighbors of mine called this morning to ask their children to be granted the privilege of shooting toy cannons in their yards. I told them that the toy cannon was considered a dangerous weapon, and that if permits of this kind were granted to all children, the city would be a scene of destruction.

Permits for the use of blank cartridges in revolvers are sought by many visitors to the mayor's office, and no class of applications is more promptly refused than these. Secretary McKimley, Secret Dawson and Page James Clark of the mayor's office were granted to the evening of the making out permits for the use of light fireworks, such as rockets, Roman candles, pinwheels and similar displays, mostly for use at night.

GROSVENOR WAS MISQUOTED

The General Denies That He Said Mr. McKinley Was a Possibility for a Third Term.

KANSAS CITY, Mo., July 2.—Gen. Chas. H. Grosvenor of Ohio, speaking to a reporter of the utterances regarding the third term question, impudently to him, said: "I was misrepresented. The interview was a mistake. I do not say that Mr. McKinley is a possibility for a third term. I will not say and I have not said whether I think McKinley could be elected a second time, but I do say that in my opinion no man will ever be elected to a third term."

Gen. Grosvenor is en route to Winfield, Kan., where he will deliver an address on July 4.

DR. HYATT PROMISES US RAIN

Chicago Was Drenched "and St. Louis Is Sure to Catch It Sooner or Later."

"There is a chance for showers," said Dr. Hyatt Tuesday morning, fixing his weather eye upon the map prepared under his direction.

The product of the thirteenth day of the present hot spell, which began June 29. Since that date the thermometer has registered over 90 degrees every day. Monday night was about like those that preceded it, but it may have been a little warmer on Tuesday.

MISSOURI DAY AT BUFFALO

Everybody Was There to Be "Shown."

CLOUDLESS SKY AND A BREEZE

WINSTON CHURCHILL INTRODUCED BY PRESIDENT FRANCIA.

Speeches Made by Mr. Francia, Lieut. Gov. John A. Lee, Col. C. P. Walbridge and Senator Thomas H. Carter.

Special to the Post-Dispatch.
BUFFALO, N. Y., July 2.—Missouri Day and the dedication of the Louisiana Purchase Exposition building were celebrated at the Pan-American grounds today in an almost cloudless sky and amid strong southern breeze. Before 10 o'clock the grounds immediately surrounding the building were crowded with Missourians and their invited guests. Inside the hall there was a profusion of flowers and out of place were masses of palms and evergreens. The music was furnished by the Mexican National Band of 147 pieces and the Costa Rican orchestra of 10 pieces. Mr. Winston Churchill arrived early and was introduced informally to everybody by President Francia.

"I am astonished to see so many Missourians so far from home," said a New Yorker, "but they're really good fellows and we are all coming out to see them in 1901. Immediately after the dedication with Missouri and World's Fair buttons and given a front seat. It was 11 o'clock when President Francia mounted the improvised platform and called the assemblage to order. He then introduced the various committees and commissioners from all the states were present, while the reception room was filled with ladies."

President Francia, in opening the proceedings, declared that the exposition was a great educational. They bring into closer relationship, he said, not only the people of the world, but all elements of the world. He felicitated the Pan-American management on their great success and hoped that the full appreciation of all countries was more promptly refused than these. Secretary McKimley, Secret Dawson and Page James Clark of the mayor's office were granted to the evening of the making out permits for the use of light fireworks, such as rockets, Roman candles, pinwheels and similar displays, mostly for use at night.

President John H. Milburn of the Pan-American Exposition spoke for the Louisiana Purchase Exposition. He said that the strong presentation of the historical fact of the Louisiana purchase, which was bought by the United States from Napoleon.

Lieutenant-Governor John A. Lee spoke for Missouri. Among other things, he said that this occasion is the driving of the first spike in laying the first rail of a great road and the great event of the world is the dedication of the Louisiana Purchase Exposition building, which is a monument to the Louisiana purchase, which was bought by the United States from Napoleon.

Senator Thomas H. Carter of the National Commission spoke briefly, complimenting the Pan-American management on their great success and hoped that the full appreciation of all countries was more promptly refused than these. Secretary McKimley, Secret Dawson and Page James Clark of the mayor's office were granted to the evening of the making out permits for the use of light fireworks, such as rockets, Roman candles, pinwheels and similar displays, mostly for use at night.

President John H. Milburn of the Pan-American Exposition spoke for the Louisiana Purchase Exposition. He said that the strong presentation of the historical fact of the Louisiana purchase, which was bought by the United States from Napoleon.

Gov. Jeff Davis, in an earnest speech, said he came here to express the enthusiasm of his people for the Louisiana Purchase Exposition. If you don't look out, he said, Arkansas alone will make an exhibit at St. Louis and will make Buffalo a mere side show.

Congressman Burton spoke for Louisiana and its governor, pledging his state to the support of the exposition at St. Louis.

Congressman Cochran of St. Joseph, Mo., delivered a brief and forceful address on the liberty and civilization which had been the product of the Louisiana purchase. He spoke of the Louisiana purchase as a great event in the history of the American revolution. He said that it was a clear case of luck that we got the Louisiana territory. The Louisiana purchase was a great event in the history of the American revolution. He said that it was a clear case of luck that we got the Louisiana territory. The Louisiana purchase was a great event in the history of the American revolution.

Mr. E. S. Garver, President of the Missouri Commission, spoke of the Missouri Commission and the perfect harmony that existed between the Missouri Commission and the Louisiana Purchase Exposition. He said that the Missouri Commission was a great event in the history of the American revolution. He said that it was a clear case of luck that we got the Louisiana territory. The Louisiana purchase was a great event in the history of the American revolution.

William L. Buchanan, director general of the Pan-American Exposition, extended congratulations to St. Louis and invited the Missourians to take possession of the grounds for the remainder of the day.

Refreshments were then served to the entire audience and an hour later Dr. David T. Day, superintendent of mines and mining gave a reception to the Missourians at the mines building.

NEW WORLD'S FAIR QUARTERS

Suite on Sixth Floor of Laclede Building Added to Present Offices on the Seventh Floor.

The partial removal of World's Fair headquarters from the seventh floor to the sixth floor of the Laclede building was finished Tuesday morning.

President Francia, Secretary Stevens and the executive committee will continue to use the offices on the seventh floor. The offices of the various committees will be established on the floor below.

The present move of the quarters, be given up to the grounds and buildings and the press and publicity bureau, which already have been moved to the grounds, will be moved to the grounds. On account of the absence of the city officers of the commission and the men of committees, who are now in St. Louis, there will be no meetings of the committee until Friday.

EARI RUSSELL'S TRIAL.

It Will Be Rushed to Get Testimony of
Americans Now in England.

LONDON, July 2.—Regarding the preparations for the trial of Earl Russell on the charge of bigamy the prosecuting authorities are not expecting a serious delay in opening of the case. They have need of the evidence of the Earl's wife, who is now in England. Judge

**NOT A DOLLAR NEED BE PAID
UNTIL CURED
LOSS OF MANLY VIGOR**

Curier is a voluntary witness who cannot remain indefinitely in London. He has said that he cannot remain in the middle of August, but must return to Nevada, either for or not it suits the convenience of the crown. It is probable that there will not be any negligence on the part of the prosecution in establishing the identity of the accused Earl.

The Royal Gallery, in which Lord Russell will be tried is one of the finest rooms in the precincts of the House of Lords. It was occupied by a large number of privileged spectators on the occasion of the state opening of Parliament.

Now I think the contrary. I found the Chicago society very polished and agreeable. In the evening we went to the theatre. The city I found most artistic and musical developments. I found this also true of the other cities I visited. The fellow countrymen of the East. The East, I think, holds itself above the West and feels the West is not quite its equal in learning, enterprise or—if I may be permitted—good manners.

**WAITING FOR
COOL WEATHER**

No Important Developments
in Steel Strike.

MILLS UNDERGOING REPAIRS.

THE REAL STRUGGLE WILL NOT
BEGIN UNTIL FALL.

Strike Leader Shaffer Is Preparing
for a Stubborn Contest by Requir-
ing the Workers to Raise
Funds by Assessing
Union Members.

PITTSBURG, July 2.—The second day of the strike of the steel and steel hoop workers of the Amalgamated Association opened without interesting or exciting features. It was evident that neither side anticipated early developments, as there was no unusual activity about the combine offices and the utmost quiet prevailed at the headquarters of the workers. As President Shaffer remarked, the conditions of the present strike were peculiar and no decided results were expected for ten days or two weeks. By that time the manufacturers having all necessary repairs at their mills completed, would be anxious to resume operations. The struggle would then begin in earnest.

The strike is quite general, however, that the real test will not come until the close of the hot weather and the general resumption of business in the early fall and in the meantime it is thought that the conflicting interests will see their way clear to recede from the present positions.

That President Shaffer of the Amalgamated Association is preparing for the rainy day which may come if the strike is prolonged indefinitely, is evident from the circular mailed to the association lodges today. The circular directs the lodges to lay assessments upon their members, the money to be used for the relief of such members of the association as might be out of work. The money collected by these assessments of the lodges will be forwarded to Pittsburgh, where it will be placed in the general fund of the association.

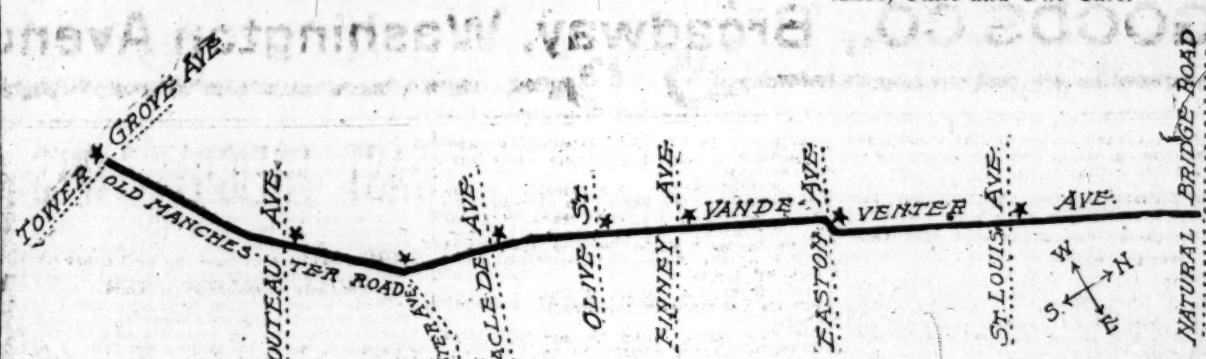

The latter has for years been creating a strike fund systematically and methodically. This fund is said to amount to between \$300,000 and \$500,000. The combine officials do not appear to be worrying over the situation and say they do not recognize a condition of a strike yet. Some of the officers intimate that there may be a renewal of negotiations at any time and a settlement effected. In outside circles the belief is growing that the strike will be called off before it gets fairly well under way.

Outside the combine plants there is little sign of tension over the situation. Among the independent companies in Pittsburgh, which have closed down, but who are ready to sign, are: Zug & Co., Limited; the sign; the Pittsburgh Forge and Iron Co., who are satisfied to grant the men's demands; A. E. Evers & Co., who are ready to sign the scale whenever the committee waits upon them, and Brown & Co., who are closed for repairs.

FREIGHT CARPENTERS STRIKE.
C. & A. Shop Men at Bloomington Ob-
ject to Piece Work.

BLOOMINGTON, Ill., July 2.—All em-
ployees of the freight carmen department
of the Chicago & Alton shops here are
on a strike against the piece system. At the
close of work Monday the entire force
struck and say that they will not return
until the objectionable system is done
away with. It is believed that the entire
shop system will soon be affected. Mass
meetings are being held nightly and much
feeling is shown. The officials refuse to
abolish the system. It is believed that the
machinists will join the carpenters.

The Best Prescription for Malaria.
Chills and Fever is a bottle of Grove's Tonic
Cure. It is simply low and quick in a
tasteful form. No cure—no pay. Price 50c.

WILL MARKET THE OIL.
The Gulf of London Is Agent for the
Shell Company's Oil Production.

WASHINGTON, July 2.—At the annual
meeting of the Shell Transport and Trading
Co. in London it was announced that
the company has closed a contract with
the Gulf Petroleum Co. of Pittsburgh,
which has developed the Texas oil fields,
by which the Shell Co. becomes the dis-
tributing agent for the petroleum products
of the Gulf Co. in foreign markets.

For five years, when he succeeded the late Father James Bourke, he has been rector of St. Michael's. Since his coming to the parish he has made many improvements, decorating the church with new altars, new pews and an electric lighting system, besides re-establishing the parochial school, which now has 400 pupils.

Twice within a week burglars have made persistent efforts to gain entrance to the convent of the Sisters of Loretto at Eleventh and Benton streets.

Each time they were scared away by one of the sisters, who happened to be awake when the burglars began work on a rear door.

Capt. O'Malley of the Fifth District was notified of the attempted intrusion and for the last two nights has had an officer detailed near the convent.

The dizziness and faintness from which women suffer may be due to one of several causes. But the most common cause is disease of the delicate womanly organism.

The story of Mrs. Brown, told in her letter below, gives a fair example of the condition under which so many women work: "I had a sick headache nearly all the time; was so weak around my waist I could hardly bear anything to touch me."

"I could not sleep at night. I was so weak and white and then 'down a while.' Failing to obtain more than temporary relief from her doctor's treatment, Mrs. Brown began the use of Dr. Pierce's Favorite Prescription, with the usual result—a complete cure."

Dr. Pierce's Favorite Prescription is the best medicine for the cure of all these cases peculiar to women. It establishes regularity, dries offensive drains, heals inflammation and ulceration and cures female weakness. It makes weak women strong, sick women well.

A few years ago I suffered severely with female weakness and had at times dreadful "white" with Mrs. V. Brown, of Lowell, Mass., who writes: "I went to my doctor, and he gave me medicine which did me good for a while, but I would get worse again. I had a sick headache nearly all the time; was so weak around my waist I could hardly bear anything to touch me. My feet would keep cold and I could hardly do my work. I would work a while and then 'down a while.' I was completely run down. Suffered from disagreeable discharges and also from pain at times. After using five boxes of Dr. Pierce's Favorite Prescription, three of his 'Golden Medical Discovery' and following the advice you gave regarding the 'Lotion Tablets,' I am truly happy that I am cured. The doctor said it was uterine disease I had."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only, or if cloth-bound volume is desired send 51 stamps. Address Dr. R. V. Pierce, Buffalo, N.Y.

adds that the British foreign office requested that the medal be forwarded to Mr. Blinn at his home in New York City.

HIGH EXPLOSIVES ARE BARRED.

Mayor's Order Concerning Small Fireworks July 4 Is Modified.

Secretary James G. McConkey, who has charge of the issuance of mayoral permits for the use of fireworks, says that the Fourth of July this year will begin and end on July 4.

Mr. McConkey is doing his best to impress on the applicants for permits the fact that the privileges granted are for one day only, and that anyone who disregards that fact will be the subject of a permit applying to the Fourth.

Acting Mayor Hornsby has modified Mayor Wells' order in regard to fireworks by directing that no permits shall be required for the shooting of squibs, or small firecrackers. The order against cannon crackers and revolvers will continue unabated.

Father Mullen Transferred.

Father Thomas Mullen, who for some time has been stationed at St. Bridget's church as third assistant pastor, has been transferred by order of Archbishop Kinn to St. Louis, Mo., and related to the dignity of rector. For ten years Father Mullen was curate of St. Michael's Church, serving under three different pastors there. Fathers Eustace, Burke and McCabe. Father Mullen is yet a young man. He received his ecclesiastical education in Ireland, afterward serving for a time as a professor in one of the theological colleges there.

Father McCabe Celebrates.

Monday morning Father Michael J. McCabe, rector of St. Michael's Church, observed his thirty-fifth anniversary in the priesthood by celebrating mass. He was

remembered by his 3500 parishioners, who presented him with a generous purse during the day.

In years of service as a priest he is one of the oldest in the St. Louis diocese. He has been in St. Louis since 1887, and during this time as an assistant to his brother, Father James McCabe, who is rector and curate of the Sacred Heart Church in North St. Louis.

Added to this Father McCabe was two years an assistant in the Brooklyn, N. Y., diocese.

For five years, when he succeeded the late Father James Bourke, he has been rector of St. Michael's. Since his coming to the parish he has made many improvements, decorating the church with new altars, new pews and an electric lighting system, besides re-establishing the parochial school, which now has 400 pupils.

IRVING SCHOOL WINNERS IN THE POST-DISPATCH P. S. LEAGUE RECEIVE THEIR MEDALS

Public School Baseball Season Ends Successfully and Arrangements for a Better League Next Year Are Already Under Way.

The finale in the Post-Dispatch Baseball League season occurred Monday afternoon, when the members of the Irving team, winners in the Post-Dispatch Public School organization, were presented with the medals emblematic of their victory.

Owing to the intense heat all ceremony was dispensed with. Nevertheless a number of the schoolmates of the team members were present and gave the boys a rousing cheer as the trophies were handed out.

After the distribution of the prizes the winners were congratulated by the Post-Dispatch representative and the league was officially ended for the season.

Both leagues are to be congratulated on the success with which the original plans of the organizations were carried out. Altogether 11 schools were originally entered, and as most of them fought the season out, the Post-Dispatch and the league committees were confronted with many difficulties arising from the untimely nature of the organizations.

The chief of these was the arranging of a schedule that would be equitable and yet avoid unnecessary games. A second was the task of providing grounds within the reach of all. From the widely separated locations of the various schools represented this was found most difficult to settle satisfactorily.

The matter was compromised by dividing up the original leagues into divisions of locality, meeting both problems successfully by one move.

After the schedule was begun there was little hitch, save as to the difficulty of playing on postponed games. The preliminary and final schedules were played out without the least hitch.

Nevertheless, there will be many improvements in the details of the Post-Dispatch organization of 1902 over that of this season. Next one of the league agreements can be arranged.

Lack of time at the start necessitated arrangements which will be done away with or modified for the coming year.

An endeavor will be made to have both leagues self-governing. Each will form its own organization, elect its own officers, arrange for the subdividing of the league on

the best location scheme possible, arrange for grounds, and fix the schedule. The question of playing grounds caused most trouble and will be the subject of first consideration. All games next year, it is expected, will be played on neutral grounds. An arrangement for league umpires will have to be made.

It is confidently expected that the league of 1902 will number among its members a number of the best players of the city. The league will be ended with the Post-Dispatch organization of 1902 over that of this season. Next one of the league agreements can be arranged.

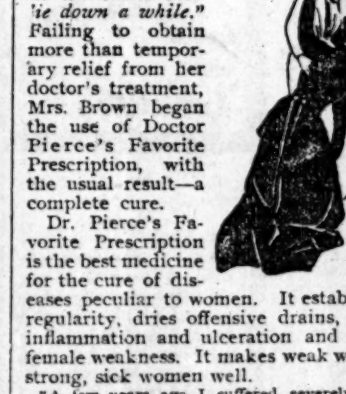

Lack of time at the start necessitated arrangements which will be done away with or modified for the coming year.

Praises Pyramid Pile Cure.

Mrs. Aaron Medron of Savannah, Ga., writes: "I had piles and rectal trouble for years until it was unbearable any longer. As I had often seen Pyramid Pile cure advertised I determined to try it and for two years have never ceased to congratulate myself that I did so for I have been entirely cured of rectal troubles and two packages of the Pyramid did it."

The Pyramid Pile Cure contains no cocaine, opium or any injurious drug whatever, and is absolutely safe, painless and never fails to cure piles in any form. Druggists sell full sized treatment of this remedy for 50 cents.

adds that the British foreign office requested that the medal be forwarded to Mr. Blinn at his home in New York City.

HIGH EXPLOSIVES ARE BARRED.

Mayor's Order Concerning Small Fireworks July 4 Is Modified.

Secretary James G. McConkey, who has charge of the issuance of mayoral permits for the use of fireworks, says that the Fourth of July this year will begin and end on July 4.

Mr. McConkey is doing his best to impress on the applicants for permits the fact that the privileges granted are for one day only, and that anyone who disregards that fact will be the subject of a permit applying to the Fourth.

Acting Mayor Hornsby has modified Mayor Wells' order in regard to fireworks by directing that no permits shall be required for the shooting of squibs, or small firecrackers. The order against cannon crackers and revolvers will continue unabated.

Father Mullen Transferred.

Father Thomas Mullen, who for some time has been stationed at St. Bridget's church as third assistant pastor, has been transferred by order of Archbishop Kinn to St. Louis, Mo., and related to the dignity of rector. For ten years Father Mullen was curate of St. Michael's Church, serving under three different pastors there. Fathers Eustace, Burke and McCabe. Father Mullen is yet a young man. He received his ecclesiastical education in Ireland, afterward serving for a time as a professor in one of the theological colleges there.

Father McCabe Celebrates.

Monday morning Father Michael J. McCabe, rector of St. Michael's Church, observed his thirty-fifth anniversary in the priesthood by celebrating mass. He was

remembered by his 3500 parishioners, who presented him with a generous purse during the day.

In years of service as a priest he is one of the oldest in the St. Louis diocese. He has been in St. Louis since 1887, and during this time as an assistant to his brother, Father James McCabe, who is rector and curate of the Sacred Heart Church in North St. Louis.

FAST FREIGHT LINES

"COMMUNITY OF INTEREST" WILL ABOLISH THEM.

MANY SOLICITORS WILL GO.

Railway Consolidation Will Also Combine Ticket and Freight Offices.

Special to the Post-Dispatch.

CHICAGO, July 2.—Employees of the great railroad combination which has now made its grasp on the principal lines in the West and Northwest secure, will soon feel the effect of the "community of interests." As a result thousands of men who have earned their salaries by reason of their skill on obtaining business in competition with other roads will be dismissed.

The fast freight lines are doomed. They are looked upon by the owners of the railroads as breeders of competition. A majority of freight soliciting agents are attached to the fast freight lines.

Another prospective result is the consolidation of the offices of the railroads in the trust in the different cities. In Chicago the Morgan-Hill interests maintain four separate offices—the Burlington, Monon, Great Northern and Northern Pacific. It is feared that as these four offices represent one interest and the business might be transacted in one, the consolidation would save money. The Vanderbilt system maintains six offices in this city and they are to be consolidated.

FARMERS WILL GET \$1,000,000

Large Sum of Money to Be Paid by a Syndicate for Missouri Lead Lands.

Monday through Attorney Eugene H. Angert of St. Louis the work of taking up the options on the lead lands in Washington and St. Francis counties, Missouri, by the Whitney-Ryan-Rogers syndicate of New York was begun.

Mr. Angert went to the lead district, where he made various payments in compliance of the immense deal announced several months ago in the Post-Dispatch, whereby the Eastern syndicate, which is said to be acting directly for the Union Lead and Oil Company purchased 200,000 acres of land along the river, extending from Irondale to the holdings of the St. Joseph Lead Company near Boone, Mo.

Mr. Angert will pay to the farmers and other landholders of these two counties, on whose property the options have been running for the past two years, about \$1,000,000.

The Union Trust Company of St. Louis has acted as financial agent for the syndicate.

The purchasers are believed to be co-operating with the American Smelting and Refining company, or the Guggenheims, as this company is best known. Recently the Guggenheims bought the property of the Federal Lead Company at St. Francis, Mo., and other mining interests, for about \$200,000.

The recording of deeds transferring a part of a 3,000-acre purchase near Potosi, in Washington county, announced last Sunday in the Post-Dispatch, is interesting in connection with the fact that the Potosi land is rich in baryte. This mineral is the foundation for paint.

It is known that the White

Ice Creams and Sherbets.

HOW TO MAKE THE BEST.

A practical demonstration will be given in our House-furnishings Dept.—2d Floor—

Wednesday Morning at 10 O'Clock,

by Miss Jennie Gilmore, on methods of producing the best ices in the least time with a

Wonder Ice Cream Freezer.

The "Wonder" will make 20 different kinds of cooling ices. It is a thorough mixer and a rapid, even freezer.

MENU: Italian Raspberry Ice, Roman Punch, Philadelphia Ice Cream.

New Store, Broadway & St. Charles

The McCray Idea

Is not how cheap can we make a Refrigerator, but how good. Therefore we do not paint our woodwork and call it an enameled box, nor do we line them with glass to obviate the expense of using TILES, which latter is the best possible lining for a high-grade refrigerator. It is a pleasure to sell such work and a constant source of satisfaction to every housekeeper to have a McCRAY. Saves worry—saves trouble. It seems to express the very idea of Joe Jefferson's famous Rip Van Winkle toast: "Here's your good health—and your family's—and may they all live long and prosper." We use only select meat. Careful workmanship.

FENDER LEGISLATION.

If the people of St. Louis are to have the relief expected from legislation by the Municipal Assembly with regard to street car fenders, the utmost care must be taken to see that such legislation shall be positive and obligatory. It must be in the nature of a mandate, compelling the Board of Public Improvements to examine all designs for new fenders submitted and to pass upon such only as shall have been proved, by proper tests, to be life saving.

In other words, the ordinance should command, not permit. And a time should be specified within which the Board shall be called upon to take action.

This is a matter of life and death, not of sentiment, politics or money, to the people of St. Louis and to the vast throng of visitors who will make this city their stopping place for days, weeks or months at a time within the next two or three years.

An ordinance merely permitting the Board of Public Improvements to cancel certificates of approval of fenders heretofore granted will not meet the exigencies of the situation. The worthless fenders must go and life-saving apparatus must take their place. The record of the fenders themselves bears all option. There can be no "ifs" or "maybes" about getting rid of these murderous devices. It is a case of "must."

Gen. Gomez's persistent reticence seems to indicate that he is in Washington to saw wood.

KEEP COOL.

Too much care cannot be exercised during the hot spell to avoid the worst effects of the torrid heat. Already a number of persons have succumbed and died. The list should not be allowed to lengthen.

To begin with, the best and most comprehensive rule is to keep cool. Pretending to do no good. It will do much harm, by aggravating the fever in the blood and exciting the nervous system.

Don't eat too much. In winter an abundance of food is needed to keep the fire going. In summer the food allowance may be considerably reduced. Overeating is overheating and cannot but be hurtful. Don't work too hard. Take it easy. This can be done without neglecting duty. Nobody is strenuous these days. Relaxation is relief.

Finally drink no stimulant; coffee and tea, even, should be taken with moderation. Cold water, not too cold, is the best beverage, and answers all the requirements of nature.

The human frame is so constituted that it can bear the extremes of heat and cold. If there is a breakdown, it is due in most cases to the omission of the ordinary precautions of good sense.

With the Boers yet to lick, England is generous indeed to hint that she will help us to get into trouble.

DOMESTIC UNION IN ST. LOUIS.

Miss Sophia Becker, who is organizing a servant girls' union in Chicago, proposes to follow up her work in that city by a similar movement in St. Louis and other centers.

It seems to be characteristic of latter-day industrial conditions that everything is done through organization. And it is therefore not surprising that domestic service should follow the general rule.

But it is doubtful if a union of this kind would improve the condition of the servant, if it is based upon the idea that there is a necessary conflict of interest between mistress and maid. Conditions satisfactory to both depend almost entirely upon temper and sympathy. If there is a good understanding between them, if the mistress does not exact what is beyond the strength of the maid, and if the maid does not try to shrink from plain duty, there will be no trouble in that family; a union will not improve things if both parties to the contract are just, forbearing and humane.

Union, however, might do much for the domestic servant way of education. The management of a union is a useful educational discipline. If the members take a genuine interest in the proceedings and actively participate in the good mind and a clearer view of life.

As a rush to look at the World's Fair grounds onough nothing had yet been done on them. What rush when there is more to see?

POOR PIES AND DIVORCE.

As of charity, at widely separated points, have had pies and poor cooking are the chief objects here are Chicago and Kansas City, both of plenty of material for data.

A "society" think of this dictum, coming from officially, have nothing to do with it. Will not just provide material for the divorce courts and which shines suspiciously at hotels or has a indulge a quiet smile at the idea that poor asible for divorce colonies and suits for alimony.

Whom the bureau of charity have to deal with, as a rule, are not people at all. They are not par-

ticular if it does not happen to be a la mode, and they can usually make pies good enough to suit their taste, if they can only get the material.

Poor pies would be considered a sufficient cause for divorce by the easy-going folks who make rich pickings for the divorce lawyers. But they don't usually set up such grounds in their petitions for separation. They are generally well contented with the cookery they get. All they want is a change in what Mr. Herron calls "companions."

Vast tracts of rich Missouri land have passed into the hands of a great combine, and it is reaching for more. All that is on the earth and all that is in it is being mined. The hands of syndicates and trusts. The clamor for tariff reduction may grow louder before Congress meets.

A NEW CENTER OF INDUSTRIAL DOMINION.

M. Jules Cambon, French ambassador at Washington, with the penetrating vision of true statesmanship, fixes the future seat of empire in the Mississippi Valley. He is, of course, unbiased and looks with impartial eye upon all sections of the nation to which he is accredited.

Men of the Middle West have long held this opinion. And events justify the expectation. No more fertile region exists than the Mississippi Valley. Navigable rivers flow from north, east and west. Rail transportation is abundant. The hands of syndicates and trusts. The clamor for tariff reduction may grow louder before Congress meets.

This is the high claim confidently put forth. It will be allowed by the judgment of the world when the World's Fair makes the fact too plain for argument. New St. Louis is the promise of a New West, and a new center of industrial dominion.

Leut. Uterback reports that there are enough moneyless Americans in the Philippines looking for jobs. The American who would emigrate to our new possessions should take good care to get correct information before he starts.

A JURY OF HIS PEERS.

Earl Russell of England is charged with bigamy. And he is to be tried by "a jury of his peers." This means that out of the 35,000,000 people of England, only 587 men who sit in the House of Lords are eligible for the jury.

There are plenty of judges in England and jurymen are thicker than blackberries; but Russell's guilt or innocence is none of their business. He might have as many wives as Thackeray's suitors, and they could not raise a legal protest. The act of bigamy is said to have been committed in America. But could so high and mighty a man commit bigamy with anyone in this land of inferiors? And why should his peers take cognizance of anything he chose to do in regard to persons of no title or standing in a foreign land?

Of course the 587 coronet wearers at Westminster are enough to try a man. The jury is big in every way. It has to be to try such a brother whale. And all the minnows of the British Isles will have the privilege of looking on while he is convicted or cleared under the strict rules of the feudal system of which he is one of the heads.

Japan proposes to increase the duty on American petroleum because of our duties on Japanese goods. Should she do so we cannot reasonably complain. With our hand against every other country, the hand of every other country may well be raised against us. If a high tariff has given us prosperity, how can it fail to give prosperity to foreigners?

Britain is paying no more attention to constitutions than are the United States. The constitution of Cape Colony has been practically suspended. Taxes are illegally levied and "the imperial government has arrogated every article of the compact under which a free people owe allegiance to its rulers."

The opinion that the removal of a large part of the war stamp tax would cause a reduction of not more than \$25,000,000 in the Government's receipts may be correct. Conditions show how unnecessary has been the great burden placed upon the country by a careless administration.

In all the great cities the weather is warmer than the Government thermometers indicate. The great heat from engine rooms and the reflected heat of the sidewalks and walls cannot be taken into account by an instrument placed in a dome or a tower.

Considering that coffee is not a necessity, and in many cases is believed to be detrimental, it is remarkable that 1,310,123,000 pounds of it are annually consumed in the United States, Germany, France and Great Britain.

It is asserted that Gen. Gomez has been on the payroll of the United States ever since the close of the Spanish war. But it is better to give Gomez a salary than to pay one to the Sultan of Sulu to maintain a harem.

The decision that a legacy to an adopted daughter must pay the same tax as one going to a stranger will suggest to adopted papas that it might be well to provide for adopted children before making a will.

With approximately 200,000,000 bushels of Minnesota and Dakota wheat added to the enormous crops of Kansas and Oklahoma, it looks as if we shall be able to meet all the foreign shortages.

While we can, let us sit in the shade and consider the statement that in the United States every 24 hours 25,000 acres are denuded of timber.

POST-DISPATCH SNAP SHOTS.

Every emp. and every rex Will want to see the Lou-Pur-Ex. Many a man has been put on his feet by the Cripple Creek outfit.

While Old Sol has been roasting everybody, everybody has been giving Old Sol a roast.

The army has been considerably lightened by the retirement of Gen. Shafter. Even the heat of the tropics failed of being an anti-fair for this rotund hero.

The Recording Angel notes a small cake of ice as well as a light weight in coal. We cannot be positive of the future of the ice man, cool as he may seem just now.

Is the beautiful robe made for the President in St. Joseph, Mo., a dressing gown, a mother Hubbard or a "nighty"? Will not the man with the camera give us a snap shot?

With Uncle Samuel's greatest gun, which will be also the greatest in the world, on exhibition at the World's Fair, Yankee Doodle will certainly come to town. The 16-inch rifle cannon will be a nation bigher and a nation blunder than the one he saw when he went down to camp with Cap'n Gooding and heard General Washington giving orders.

ANSWERS TO CORRESPONDENTS.

R. R. V.—Nobody is exempt from taxation. N. D.—There is no premium on a half cent of 1894. J. P. N.—There is no premium on the Washington cent.

IMPORTANT.—Write to foreman direct. It is not necessary to have his name.

A READER OF ILLINOIS.—Write to School of Mines, Rolla, Mo., for a smaller seeping cap than the one you have. The content of America stretches from north of the Arctic circle to Cape Horn.

A PATRIOT.—Mayor's permit does not cover blank cartridges or loose powder. You can shoot fireworks and small fireworks if you have permit. Cannot crackers, pistols and other fireworks are prohibited.

Push the Fair. From the Springfield (Mo.) Republican.

What the country would like to see manifested at the very inception is executive force. The way to inspire confidence in the public is to go ahead and do something. The people all over the country are waiting for the response. The response is the Mississippi valley, yes, we may say, of this country, is the coming World's Fair at St. Louis.

An ordinance compelling section 1764 and section 1765 of the municipal code of St. Louis to be repealed. An ordinance compelling section 1764 and section 1765 of the municipal code of St. Louis to be repealed.

An ordinance compelling section 1764 and section 1765 of the municipal code of St. Louis to be repealed. An ordinance compelling section 1764 and section 1765 of the municipal code of St. Louis to be repealed.

AMMEN'S MEDICAMENT

EXPLAINED. "Yes," said the great London publisher, "when Kitchener returns we might make him editor of our paper."

REGULAR FORM. "Where do you live—in a swamp?" thundered the employer to the new janitor who could not remember to shut the door after him.

NOT EXACTLY. "Well, you might call it that, sir," answered the janitor coyly. "I live in the suburbs."—Ohio State Journal.

SAGE IN POLITICS. "I hope to see the time when there is no more politics," said the ardent youth.

OBEYING ORDERS. "Where do you live—in a swamp?" thundered the employer to the new janitor who could not remember to shut the door after him.

HE WAS A BIRD. Time: Monday morning. Location: Aboard a Delmar car. The weather was hot, but it is a hot hour of the day.

KEEPING COOL. St. Louis weather has been abused so much that no one pays any attention to the invidious comparisons of the local climate with that of the north pole in winter and the equatorial regions in summer.

LETTERS FROM THE PEOPLE. (This column is open to everybody who has a complaint to make, a grievance to ventilate, information to give or a subject of general interest to discuss, or a public service to acknowledge, and who can do so in less than 100 words. Letters from persons seeking employment cannot be given place in this column.)

Shirtwaist and Surplice. To the Editor of the Post-Dispatch. A clean, white shirt, without suspenders, such as Rev. Mr. St. Louis wears in church Sunday, looks more like a surplice, as far as the waist line, than does a coat with the preacher's person.

Impugning Motives. To the Editor of the Post-Dispatch. The course taken by an afternoon newspaper in impugning the motive of Rev. Mr. St. Louis is a disgraceful and unbecoming one.

Not a Mother-in-Law. To the Editor of the Post-Dispatch. I see that because I spoke well of my two mothers-in-law, one of the other ones who have had experience—I am denounced as being myself a mother-in-law. The truth is I am an old married man, with a wife and a son, and I am not a mother-in-law.

The Eye. To the Editor of the Post-Dispatch. Franklin says: "The eye of a master will do more work than his hands," for without speech it can make all its sentiments known.

Daughter-in-Law's Experience. To the Editor of the Post-Dispatch. I would also like to hear from the daughters-in-law as I am one. I have had two mothers-in-law, and I have a daughter-in-law as well as a son-in-law.

FENDER ORDINANCES. A St. Louis Lawyer Says Death-Dealing Fenders Should Be Wiped Out of Existence.

To the Editor of the Post-Dispatch. Knowing well the interest of your valuable paper in the safety of the people and your efforts to secure to them the protection from all sources of danger they should have, I beg leave to call your attention to an ordinance that was introduced in the City Council by Mr. C. E. Gibson.

Section 1. Amending section 1765 of the municipal code of St. Louis, by adding the following words at the end of section 1765: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 2. Amending section 1766 of the municipal code of St. Louis, by adding the following words at the end of section 1766: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 3. Amending section 1767 of the municipal code of St. Louis, by adding the following words at the end of section 1767: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 4. Amending section 1768 of the municipal code of St. Louis, by adding the following words at the end of section 1768: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 5. Amending section 1769 of the municipal code of St. Louis, by adding the following words at the end of section 1769: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 6. Amending section 1770 of the municipal code of St. Louis, by adding the following words at the end of section 1770: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 7. Amending section 1771 of the municipal code of St. Louis, by adding the following words at the end of section 1771: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 8. Amending section 1772 of the municipal code of St. Louis, by adding the following words at the end of section 1772: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 9. Amending section 1773 of the municipal code of St. Louis, by adding the following words at the end of section 1773: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 10. Amending section 1774 of the municipal code of St. Louis, by adding the following words at the end of section 1774: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 11. Amending section 1775 of the municipal code of St. Louis, by adding the following words at the end of section 1775: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 12. Amending section 1776 of the municipal code of St. Louis, by adding the following words at the end of section 1776: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 13. Amending section 1777 of the municipal code of St. Louis, by adding the following words at the end of section 1777: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 14. Amending section 1778 of the municipal code of St. Louis, by adding the following words at the end of section 1778: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 15. Amending section 1779 of the municipal code of St. Louis, by adding the following words at the end of section 1779: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 16. Amending section 1780 of the municipal code of St. Louis, by adding the following words at the end of section 1780: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 17. Amending section 1781 of the municipal code of St. Louis, by adding the following words at the end of section 1781: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 18. Amending section 1782 of the municipal code of St. Louis, by adding the following words at the end of section 1782: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 19. Amending section 1783 of the municipal code of St. Louis, by adding the following words at the end of section 1783: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 20. Amending section 1784 of the municipal code of St. Louis, by adding the following words at the end of section 1784: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 21. Amending section 1785 of the municipal code of St. Louis, by adding the following words at the end of section 1785: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 22. Amending section 1786 of the municipal code of St. Louis, by adding the following words at the end of section 1786: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 23. Amending section 1787 of the municipal code of St. Louis, by adding the following words at the end of section 1787: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 24. Amending section 1788 of the municipal code of St. Louis, by adding the following words at the end of section 1788: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 25. Amending section 1789 of the municipal code of St. Louis, by adding the following words at the end of section 1789: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 26. Amending section 1790 of the municipal code of St. Louis, by adding the following words at the end of section 1790: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Section 27. Amending section 1791 of the municipal code of St. Louis, by adding the following words at the end of section 1791: "The Board of Public Improvements shall determine that a fender or guard which has been previously approved by the Board of Public Improvements as a life-saving device, may order the cancellation of the certificate of approval therefor."

Entered at the Post-Office at St. Louis as Second-Class Matter. Remit by Money-Order, Draft or in Registered Letter. Address all communications and complaints of imperfect service to POST-DISPATCH, St. Louis.

Agent Foreign Advertising, S. O. Beckwith Special Agency, 409 The Rookery, Chicago. Tribune Building, New York.

ON FILE

In the City Register's Office, CITY HALL.

State of Missouri, City of St. Louis, ss: Personally appeared before me, a Notary Public, in and for the City of St. Louis, Mo., W. C. Steigeb, Public Manager of the St. Louis POST-DISPATCH, who deposes and says that the regular editions of the St. Louis POST-DISPATCH for the first four months (January, February, March, April), 1901, after deducting all copies returned by newsboys and copies left over, spoiled in printing and accounted for, averaged 168,530 copies of the daily edition and 168,248 copies of the Sunday edition; and for the entire year 1900 averaged Sunday, 150,154; daily, 90,710. W. C. STEIGEB, Business Manager.

Born to and subscribed before me this 18th day of May, 1901. My term expires Jan. 23, 1903. GEO. W. LUBEK, JR., Notary Public City of St. Louis, Mo.

Our Own Make.

Every garment we offer comes from our own work-rooms and carries our guarantee. If you care for Good Clothes, our name insures them. Proper prices are equally guaranteed. Our Feather-Weight Coats and Vests, of Seersucker, Pongee, White Mohair and Black and Fancy Alpaca, will keep you cool and comfortable this hot weather.

A Difference in Flannels.

A slimpsey flannel may be tacked together to make a fairly presentable suit, but it won't wear. The price may be absurdly low, but it would be dear at any figure. Not only are our Flannel Suits stylishly cut and of stylish fabrics, but they are honestly made. They are worth all and more than we charge for them.

\$8.00 to \$18.00.

"NO CLOTHING FITS LIKE OURS."

Browning, King & Co.

Open till 10 O'clock July 3d, 1901.

CITY NEWS.

Crawford's Great Store, much the biggest in the city, and in more ways than one, was crowded in its full space of five floors yesterday as no other store here ever was before! The Fourth of July bargains fetched them, the best goods at half price fetched them. No scarcity of nice, reasonable stuff! Room for all! This store by actual measurement is 2000 square feet larger than the next biggest store in the city, wholesale or retail!

HONOR THEIR FIRST BISHOP.

Catholics of the Northwest Celebrate His Arrival at St. Paul. ST. PAUL, Minn., July 2.—The Catholics of the Northwest celebrated at St. Paul today the semi-centennial of the arrival here of their first bishop, the Rt. Rev. Joseph Crelling. This forenoon Pontifical High Mass was celebrated by Bishop McGorick of Duluth on the grounds of the St. Paul seminary. Archbishop Ireland preached the sermon. After the mass Te Deum was sung.

At 3 o'clock took place the Alula Malmi of St. Paul seminary, the presentation of the subsidies fund and of the memorial volume.

Inequalities of Eyesight Corrected. By spectacles properly adjusted, Dr. Bond, expert optician at Mermod & Jaccard's, Broadway and Locust, will examine the eyes without charge and fit you properly. Steel frames, \$1 and up; gold, \$3 and up. Type cards for testing eyes mailed free.

NEW YORK'S PERSONAL TAXES.

They Have Been Increased by About Sixty-Four Million Dollars.

NEW YORK, July 2.—The gross personal assessments for the city of New York are increased by more than sixty-four million dollars. Some of the final figures stand out as they did when they were put on the books in January. Hundreds who were assessed round sums got the first figures reduced. Some of the larger assessments are the following:

Frederick W. Vanderbilt, \$2,000,000; George W. Vanderbilt, \$1,000,000; J. D. Rockefeller, \$1,000,000; Ottendorfer estate, \$1,000,000; Andrew Carnegie, \$1,000,000; Russell Sage, \$500,000; H. H. Rogers, \$500,000; Joseph Pulitzer, \$500,000; Maria Marshall, \$500,000; Adrian In- lin, \$400,000; Maria Lewis, \$300,000; H. Mc-Kay Twombly, \$300,000; Caroline W. Astor, \$250,000; and Emily T. Sloan, \$200,000.

There are a large number in the \$100,000 class, and the personal roll, as a whole, is a fairly complete directory of New York's wealthy families.

CROSSED LINES CAUSED INJURY

They Were on Blend's Rear House and He Was a Victim.

John West, aged 16 years, of East St. Louis, was arrested Tuesday on a charge of having crossed the lines on Ford Knauth's horse so that Knauth drove in front of a running street car and was seriously injured.

Knauth is nearly blind.

West was released from Judge Morris' court.

Knauth, through the assistance of his wife, a small, dark woman of East St. Louis, though almost totally blind he has been able to drive a horse twice a day on an old bay.

It is alleged, around the lines under the horse's mouth and when Knauth started to turn Monday, the horse was jerked by him into the track to that of a street car.

AMBITION WAS VICTOR

HYMAN AND VERNON AGAIN JOINED THE U. S. ARMY.

WENT AS PRIVATE SOLDIERS

Ex-Lieutenants, Unable to Secure Another Commission, Commence at St. Louis All Over Again.

Failure to secure recognition of their services in Washington did not discourage Nathaniel Hyman and New York and George A. Vernon of Baltimore, formerly first lieutenants in the volunteer army.

They received their discharges in the Philippines three months ago and returned home.

By hard campaigning, both in Porto Rico and the Philippines, they had risen from the ranks to the grade of first lieutenant. Monday they enlisted at the St. Louis recruiting office once more as privates, determined again by service to work their way into commissions.

They departed for Vancouver at 9 o'clock Monday night to join the Twenty-eighth Infantry, now preparing there to sail for the Philippines.

Ever since their return from the Philippines, three months ago, the two young men have been in Washington seeking commissions in the regulars on the strength of their work as privates and assistants in the volunteer army.

They came to St. Louis in despair Friday and applied to Maj. Davis, in command of the recruiting station, for enlistment in the fifteenth cavalry.

Maj. Davis told them he had no authority to take enlistments for that regiment, but offered to telegraph the adjutant-general for special permission in their case. The telegram was sent Friday. No reply had been received Monday and the two former lieutenants decided to enlist in the Twenty-eighth Infantry and get into service just as soon as possible.

"They are both good specimens of soldiers," said Maj. Davis to the Post-Dispatch. "and seemed very much to earnest in their desire to get into the service. I think they will succeed."

Both Hyman and Vernon first entered the army in 1898. Vernon was a private in Nebraska regiment Hyman was in the ranks of the Twenty-seventh Volunteer Infantry.

This brought them together and made them friends. They were with the regiment in Porto Rico and afterward in the Philippines. They saw hard continuous service until three months ago, when the regiment was mustered out.

Both Hyman and Vernon first entered the army in 1898. Vernon was a private in Nebraska regiment Hyman was in the ranks of the Twenty-seventh Volunteer Infantry.

These, they said, they would hold for a year. In the meantime preparing to take examinations for commissions in the regular army.

The examinations will take place a year hence and they believe they will have no difficulty in passing them.

"The first step in the plan was successfully carried out Monday, when Maj. Davis enlisted them in the Twenty-eighth Infantry."

Birth-Month Rings, \$4.00 to \$500.00. For July. Set with Rubies, signifying "Nobility of Mind," at Mermod & Jaccard's, Broadway and Locust.

General Debility

Is loss of physical and mental strength and endurance, commonly attended by loss of appetite, that tired feeling, and general lassitude.

It is positively dangerous to neglect it, since it involves and imperils the whole system.

It is a condition that gives the advantage to every disease that threatens or attacks.

"I was run down in health, could not sleep, and did not feel like working. I took three bottles of Hood's Sarsaparilla and felt a change for the better before I had finished the first bottle. It is the best tonic I have ever tried. When I have that tired feeling again I shall resort to Hood's Sarsaparilla." MRS. MARY EVERHART, Shavansville, Ohio.

Hood's Sarsaparilla

Cures general debility and all low or run-down conditions of the system.

IMPORTANT NOTICE

For the comfort of our salespeople during this unusually hot weather, we will close the store Wednesday at the regular time, 6 P. M.—contrary to our usual custom of keeping open on the evening before the Fourth.

Store Closed All Day Thursday

In honor of the Glorious Fourth.
